

## Hotel Pabisa Bali (Palma de Mallorca, Spain)

<b>Classification</b>	New construction
<b>Type of structure</b>	Hotel
<b>Place/Time</b>	Platja de Palma – Balearic Islands - Spain, April 2019
<b>Project</b>	Construction of a new hotel located only 20 meters away from Platja de Palma, the main beach of Palma de Mallorca in the Balearic Islands.
<b>Purpose for application</b>	Due to the very high water table and soil conditions which made dewatering difficult, it was decided that the lowest part of the foundation was to be constructed underwater. A high-performance waterproofing system which could withstand the corrosive environment was needed.
<b>Application method</b>	Krystaline Add1 was added to the ready-mix trucks at 1 kg per cubic meter of concrete. The slab foundation was poured directly in saltwater with the assistance of licensed commercial divers.
